

Survey on protocols focused on adhesion procedures adopted by dentists

Levantamento dos protocolos dos dentistas em relação aos procedimentos de Adesão

Levantamiento de protocolos de odontólogos en relación a los procedimientos de adhesión

Lorena dos Santos Rodrigues¹, Paula Sampaio de Mello¹, Tereza Jacy da Silva Almeida², Mariana Itaborai Moreira Freitas³, May Anny Alves Fraga³, Nathalia Silveira Finck⁴.

SUPPLEMENTARY FILE

1. Gender: () Female () Male
2. Age (in years): _____
3. Years since graduation: _____
4. Workplace:
() Private Practice
() Primary Health Care Unit
() Popular Clinic
() Hospital
5. Do you have a specialty? _____
6. If the answer is "yes," which specialty(s)? _____

Adhesion Questionnaire

7. Do you know the concept of adhesion? () Yes () No
8. Do you often experience failures in your adhesive restorations?
() Frequently
() Sometimes
() Rarely
() Never
9. What do you notice most regarding the failures of adhesive restorations?
() Marginal pigmentation
() Restorations break/come loose

- 10.** For Class I composite resin restorations, what type of isolation do you use?
 Absolute isolation
 Relative isolation
- 11.** Do you pay attention to the brand of your phosphoric acid? Yes No
- 12.** What adhesive systems do you have in your workplace?
 Conventional two-step system
 Conventional three-step system
 Two-step self-etching system
 One-step self-etching system
 Universal
- 13.** How do you rinse the phosphoric acid?
 Air and water spray
 Water only
- 14.** Where do you store your adhesive system:
 Refrigerator
 Cabinet (drawer)
- 15.** How do you remove moisture from dentin?
 Triple syringe air
 Cotton
 Coffee filter
- 16.** How many layers of the adhesive system do you usually apply?
 One
 Two
 More than two
- 17.** Do you use the silane present in universal adhesives for prosthetic cementation? Yes No
- 18.** When choosing a self-etching system, do you selectively etch the enamel? Yes No
- 19.** Do you actively rub in (scrub) the primer and adhesive? Yes No
- 20.** After applying the primer, do you wait for solvent wetting and evaporation? Yes No
- 21.** After application, how do you remove excess adhesive?
 Air syringe
 Dry Microbrush
- 22.** Do you frequently measure the irradiance of your light-curing unit?
 Always
 Sometimes
 Rarely
 Never
- 23.** After opening, how long does your adhesive typically last and continue to be used?
 2 months
 6 months
 12 months
 More than a year
